-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 3-5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The phrase "said upper hanger support", as set forth in claim 3, lacks antecedent basis. It is unclear which of the hanger support or walk board support the phrase "each support", as set forth in claim 4, is referring to.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Kilgore. Kilgore shows lower risers 2, upper risers 6, outer horizontal hanger support 4, inner horizontal hanger adjusting piece 40 and support edge at 54.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 6 is rejected under 35 U.S.C. 103(a) as being unpatentable over Kilgore in view of Hutchinson. Kilgore shows the claimed hanger supports with the exception of the swivel adjusting holes. Hutchinson shows swivel adjusting holes 46. It would have been obvious to one of ordinary skill in the art at the time the invention was made to provide Kilgore with swivel adjusting holes, as taught by Hutchinson, to allow perpendicular repositioning of his upper riser section.

Claim 3 is rejected under 35 U.S.C. 103(a) as being unpatentable over Kilgore in view of Fruth. Kilgore shows the claimed hanger supports with the exception of the claimed upper hanger support. Fruth shows an outer hanger support 90 and inner adjusting piece 32a. It would have been obvious to one of ordinary skill in the art at the time the invention was made to modify Kilgore to comprise an upper hanger support, as taught by Fruth, to facilitate adjustment to different width walls.

Claim 5 is rejected under 35 U.S.C. 103(a) as being unpatentable over Flynn in view of Kilgore. Flynn shows the claimed hanger supports with the exception of the adjustable vertical riser and hanger bracket. Kilgore shows an adjustable riser and hanger bracket. It would have been obvious to one of ordinary skill in the art at the time the invention was made to modify Flynn to comprise adjustable risers and

hanger brackets, as taught by Kilgore, to facilitate height adjustment of his walk board and to facilitate hanging of his support on walls of different widths.

The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the limitations of claims 2 and 5 must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.
